## Because it's fun and easy !

No buttons ? Use buttonholes as a decorative accent. Simply select one of the four styles, pull down a lever and sew with confidence.

## Create tomorrow's treasures

Every stitch counts when making memorable heirloom fashions for future generations to cherish. And the Elna 6200 provides precision stitches expressly for this purpose.

## Not just for cuffs anymore

A tip from the experts - create unique striped fabric pieces with decorative stitches and the multi-cord foot. Top and bottom fabric edges connect around the free arm. So efficient.

## For perfectly shaped circles and scallops

Sewing curves can be a challenge, but not with Elna's circular sewing pivot pin! Simply insert the pin into one of the three points on the free arm.

## Feeling creative ?

Playful, elegant, trendy, nostalgic - you'll always find a stitch to match. Satin stitches, cross stitches, florals, geometrics and more bring your vision to life.

## Easy on the eyes

With this many stitches, you'll surely want to change the thread color often. Don't hesitate - the Elna 6200 offers the ultimate built-in needle threader.

## Quilting - contemporary or traditional

If you love to quilt, we have the stitches you need. Appliqué, sculpture, serpentine and feather are only a sampling. There are plenty more to satisfy your passion for quilting! And just in case you need even more room under the presser foot for those high-loft, cozy quilts, raise the lever an additional 6.5 mm (1/4").
