

PROFESSIONAL FINISH WITH EASE.

Discover the overlock in an simplified utilisation easier than you thought. With the elna 664 - professional or normal version - you will find your best ally ! This overlocker allows you neatly cutting, hemming and sewing in no time. Avoiding loose threads. Assembling synthetic materials difficult to work with becomes as easy as assembling extensible, light or thick fabrics. Because the serger, often used in conjunction with a traditional sewing machine, isn't just there for the finishing touches. It's also there to help you cut and assemble garments too.
